Rabelo Boat Regatta, 2025 (Source: Confraria do Vinho do Porto)

The Rabelo Boat Regatta is a tradition associated with the São João festivities in the city of Porto. Originally, Rabelo boats were used to transport wine barrels from the Douro Region to the Cellars of Vila Nova de Gaia, but were later replaced by tanker trucks. Currently, the regatta has a primarily cultural and tourist character, bringing together the Rabelo boats of the main Port Wine Exporting Companies. It takes place on the Douro River, between Cabedelo and the Dom Luís I Bridge, a way of valuing the river heritage associated with the Douro region and the cultural identity of Porto. In 2026, the start is scheduled for around 12h00m.

The Port Wine Cellars, an important historical, economic, and cultural heritage site that connects the Douro region with Vila Nova de Gaia, play a crucial role in the aging and preservation process of Port Wine.

Among the most important companies, A.A. Ferreira S.A. stands out, founded in 1751 and internationally recognised for the quality and tradition of its wines. In addition to the economic impact, these cellars represent an important tourist and cultural centre, which enables the preservation and appreciation of the identity and history of Port Wine.

Hidden Porto: Medieval Walls, the Jewish Quarter and the City's Finest Views

Coordinator: Jorge Ricardo Pinto — ISCET / CEGOT

Panoramic view of Porto obtained from the Virtudes Viewpoint (Photo by the author)

This itinerary explores a quieter side of Porto's historic centre, where medieval memory, Renaissance interventions and remarkable viewpoints coexist. Beginning in Carlos Alberto Square, an area associated with the city's expansion during the 18th and 19th centuries, the walk gradually enters the older quarters of Porto.

Participants will discover traces of the former Jewish quarter, fragments of the 14th-century Wall, and historic areas shaped during the Renaissance and Early Modern periods, particularly around São João Novo and Miragaia.

The route also includes two of Porto's finest viewpoints (Vitória and Virtudes) offering panoramic views over the Douro River and the historic skyline. More than a conventional historical tour, this walk invites participants to experience Porto through hidden perspectives and layered urban landscapes.

Suggested itinerary (brief): Carlos Alberto Square → Cordoaria → Vitória Viewpoint → Virtudes → São João Novo → Miragaia
